

S.A.F.E. hunters  
keep their safeties on  
whenever they are  
not shooting.

Each safety  
is unique so be  
sure to ask if you  
need help.

## Storing Firearms.

A gun safe  
protects your firearms  
from theft, fire, and  
corrosion.

Store firearms in a  
locked cabinet.

Unload firearms before  
storage.

Store ammunition in a  
separate locked  
compartment.

Keep firearms and  
ammunition in a cool,  
dry, and clean space.
